

Office Memorandum • UNITED STATES GOVERNMENT

TO : Chief, Intelligence School

DATE: 2 November 1960

FROM : Chief, Management Training Faculty

SUBJECT: Weekly Activities Report No. 39
26 October - 2 November 1960Management

B Management #62 went into the second week with student participation at a high level. The class appears to be more mature and deliberate than most in its approach to problems, possibly due to the preponderance of DDS personnel. Student activity prevented use of some of the prepared material, a situation which is re-occurring in the management course. Perhaps some lengthening may be required.

Senior Management Seminar

STATINTL The sponsors of this course, the thirty-five participants, and [redacted] agreed that the endeavor was quite successful. [redacted] requested that written critiques not be required until at least one month after the end of the course. The informal oral comments, however, have shown that the experience was enjoyable, highly informative, worth doing again, appropriate to the needs of the participants, and conducted and administered in superior fashion.

During the two-week period, short visits to the seminar were made by Mr. Dulles, General Cabell, Col. White and Mr. Gates Lloyd. Mr. Dulles was able to stay for an informal evening session with the participants who made it clear that they were gaining something of value to the Agency.

Mr. Baird has told us that Col. White has approved the proposal to conduct another conference next spring. Considering the time consumed in negotiations leading to the first course, we should probably begin rather soon to start preparations for the next one.

General

STATINTL 1. On 1 November at Mr. Baird's request, Mr. [redacted] met with [redacted] to discuss elements of a DD/S proposal concerning aspects of external training. We feel that we need some clarification by [redacted] on the request for "...definition or listing ..." of external management courses, and will arrange to talk with her at her convenience.
